Here's a message from PECO regarding upcoming tree-trimming in Bensalem:

On behalf of PECO, I wanted to inform you of our intentions to complete Distribution Preventative Maintenance tree trimming of the aerial lines within Bensalem Township during 2018. Based upon our current schedule, we anticipate tree trimming to occur in the northwestern portion of the Township Between Mid-January and February 2018. I have attached a map which shows in red where the planned trimming will occur.

This trimming will be completed by our contractor Asplundh Tree Experts (ATE).
