BENSALEM TOWNSHIP

Building and Planning Department
Office 215-633-3644 ▪ Fax 215-633-3753
Matthew K. Takita
Director of Building and Planning
2400 Byberry Road ▪ Bensalem, PA 19020

Commercial permits will not be issued until contractors and sub-contractors are licensed with Bensalem Township.

See page three of the application for trades required to hold a license with Bensalem Township. Permits can be submitted and reviewed without contractor information listed, but will not be issued until contractor information has been provided and deemed acceptable by this office. Contractors will need to complete the contractor's license application and provide a certificate of insurance with Bensalem Township listed as certificate holder.

Plans on paper will not be accepted if they are larger than 11x17".

We conduct our reviews in a digital format and require signed sealed plans to be submitted in pdf format emailed to permitcenter@bensalempa.gov or on a disk or thumb drive. We have the capability to scan 11x17" plans, if your plans are legible at this size we will accept them on paper. If you have any questions about how to submit digitally, please call Tracey 215-633-3640.

Any new plumbing fixtures require approval from BCWSA.

Permits will not be issued without this approval. Exact Replacement or relocation of existing plumbing fixtures do not need this approval. Verify plumbing section of the application has been completely filled out and indicates if any fixtures are new.

APPLICANT CERTIFICATION

As the owner or the authorized agent of the project for which this application is filed, I certify that:

1. The estimated construction cost and all other information provided as part of this application for a building permit is correct.
2. The building or structure described in this application will not be occupied until all known code violations are corrected and a Certificate of Occupancy has been issued by the Department of Building and Planning.
3. This project will be constructed in accordance with the approved drawings and specifications (including any required non-design changes) and the Uniform Construction Code standards as specified in 34 PA Code Chapters 401-405
4. Any changes to the approved documents will be filed with the Department of Building and Planning.
5. If the licensed architect or engineer in responsible charge of this construction should change, then written notice of the change shall be provided to the Department of Building and Planning.
6. When required, up to 20% of the total cost of any work performed on an area of primary function in an existing building will be expanded to provide an accessible route to the area of primary function.
7. No error or omission in either the drawings and specifications or application, whether approved or not, shall permit or relieve me from constructing the work in any manner other than provided for in 34 PA Code Chapters 401-405.

Why People do business with us:

- Save Time & Money – Non-Profit
- Provide Quality Services to their Customers
- Meet Regulatory Requirements
- Augment Staff
- Consistent On-Time, On-Budget and Quality Performance with a constant Focus on Safety

Construction and Services Offerings:

- Water & Sewer Mains, Storm Pipe and Pipe Installation from 4 inch to 42 inch
- Flow Metering for accurate Measurement, Analysis and Billing
- I/I Remediation Analysis and Repair for Inflow & Infiltration Situations
- Asset & Operational Analysis and Assessment Planning
- Water Main and Pipe Renovation and Re-Lining
- Sewer Main and Pipe Renovation
- Manhole Repair
- Lateral Replacement and Lining
- Energy & Safety Audits & Assessments

Problems they need to solve:

- Aging Infrastructure & Equipment
- Budgetary Considerations & Deadlines
- Increasing Costs & Limited Resources
- I/I Analysis & Remediation
- Regulatory Issues & Liability
- Water Quality
- Water Loss
- Sewage Overflow Incidents
- Sewage Processing Costs
- Process Quality Assurance
- Storm Water Issues
- Energy Efficiency

Water and Sewer Operations Services

Wireless SCADA System Monitoring Automation with ALL Device Threshold Alerts and Live Video Monitored by our Operations Center 24 X 7 X 365

Water Operations Maintenance Services:

- Well Pump Stations
- Water Distribution Systems

Sewer Operations Maintenance Services:

- Pump Stations
- Sewer Collection Systems

Design/Build Fact Sheet

BCWSA Design/Build Services:

BCWSA partners with Gilmore and Associates Inc to provide you with complete Design/Build Services for your Development Projects in our Service Areas. With this arrangement we can offer you the following Benefits and Savings:

- Reduced Design Costs with our Preferential Rates
- Competitive Pricing as BCWSA is a **Non-Profit Organization**
- Proposals are Tailored to your Project and are offered on a ' Fixed Price' or 'Not To Exceed' Basis
- Eliminate the need for you to Post a Maintenance Bond
- Dedication to BCWSA usually within 60 Days of our completing the work in our Service Areas offering you Relief from All Maintenance Costs
- No extraneous Legal, Inspection or Engineering Fees
- Be assured that the work is done correctly and to your specifications
- void any additional costs – ***No Change Orders and No Punch List***
- In our Service Areas, BCWSA Design/Build offers you, the Project Owner, the following Benefits:

Single Point of Contract Responsibility

- NO Conflicts or Finger-Pointing
- NO Delays
- NO Unnecessary Meetings

Minimize Risk

- NO Change-Orders
- NO Punch-Lists

Reduce the Delivery Schedule

- Coordinated Workflow from Design through Delivery
- Dedication usually within 60 Days of Project Completion

Reduce Costs

- All Engineering and Inspection Costs are included
- Eliminate Maintenance Bond and Maintenance Period Liabilities
- NO Cost Overruns

Let BCWSA be your Utility Construction Services Partner
